Summary

Accomplished **Senior Technical Product Leader** with over 11 years of experience architecting and scaling high-concurrency B2B SaaS platforms and AI-driven AdTech solutions. Expert in the end-to-end product lifecycle, from **Machine Learning model deployment** to **Microservices architecture** and API-first strategies. Proven track record of managing cross-functional engineering teams to deliver 10x ROI, including the successful oversight of a \$10M product investment. Specializing in **Predictive Analytics, Programmatic Advertising, e-Payments, and Cloud Infrastructure**, with a Doctorate in Business Administration (DBA) focused on **AI strategic innovation**. Purpose-built for high-impact product and business analysis roles in the ICT sector.

Key Skills & Expertise

Product Leadership

Product Strategy: Product Roadmap Excellence, GTM Strategy, Stakeholder Management (C-Suite), Value Proposition Design, Innovation, Marketing Technology, Market Research.

Technical Architecture: Microservices, RESTful APIs, System Design, Cloud Computing (AWS/GCP), Scalable Infrastructure.

AI & Data Science: Machine Learning (Predictive Modeling), Big Data Analytics, Programmatic Algorithms, Data Visualization (Tableau/PowerBI), AI-based Process Automation.

Methodologies: Agile/Scrum (Product Owner), SDLC Optimization, User-Centric Design (UCD), Lean Startup.

Tools & Software

Figma, GA4, JIRA, Zoho, Power BI, Replit, Claude, Salesforce, MySQL, MongoDB

Key Impact

USD 1M+ worth of yearly campaigns, incremental revenue growth contribution.

1,000+ monthly multi-channel campaign execution globally including CTV, DOOH, Web, Mobile.

75% customer adoption, growth of avg 20 subscriptions per month.

Raised USD 10M funding at Moving Walls, oversee budget allocated for products.

50% reduction in campaign planning and setup time, rearchitect legacy systems.

Received 'Fountain of Knowledge' award for innovating Programmatic Advertising in APAC.

Experience

1. Lead Staff Product Manager

Moving Walls Sdn Bhd, Kuala Lumpur *(Apr 2025 – Present)*

Orchestrated product vision for global AdTech ecosystem ensuring 85% customer happiness.
Own product roadmap and achieved 90% accuracy as per planned deliverables.
Engineered predictive analytics via Machine Learning algorithms to optimize programmatic ads.
Directed cross-functional squads of 15+ Software Engineers and Data Scientists.
Primary liaison for the Board of Directors to translate complex requirements into business KPIs.

2. Manager - Discovery and Solutions

Moving Walls Sdn Bhd, Kuala Lumpur *(Apr 2024 – Mar 2025)*

Established the Discovery team to streamline customer-driven product innovations.
Developed scalable product architecture for localized adaptations for various markets globally.
Developed a knowledge base for internal stakeholders and defined SLA for delivery.
Designed and implemented AI-based automation pipelines.
Implemented e-payments, IAM Identity and Access Management (SSO & RBAC).

3. Lead Product Manager

Moving Walls Sdn Bhd, Kuala Lumpur *(Jun 2023 – Mar 2024)*

Developed & scaled B2B AdTech SaaS solutions, enabling process automation.
AI-powered campaign optimisation, supply management for improved ROI & automation.
Led API integrations with third-party ERP (Salesforce, Oracle NetSuite).
Developed E2E Order Management System integrated with CMS to deliver automated reports.

4. Product Manager

Moving Walls Sdn Bhd, Kuala Lumpur *(Jul 2018 – May 2023)*

Developed self-serve DSP for data-driven campaign execution & real-time optimization.
Integrations with SSPs to expand inventory supply-datapool up to 2M.
Designed pricing models, onboarding flows, and campaign analytics dashboards.
Translated product requirements and user stories into technical specifications.

5. Business Analyst

Moving Walls Sdn Bhd, Kuala Lumpur *(Sep 2017 – Jun 2018)*

Designed advanced audience targeting algorithms, enabling personalized ad recommendations.
Collaborated with data teams to improve DMP functionalities & predictive analytics.
Led gap analysis & process optimization to improve operational efficiency by 25%.
Conduct UAT and gather feedback to drive iterative product improvements.

6. Forensic Scientist

iGene Sdn Bhd, Kuala Lumpur (*Mar 2015 – Aug 2017*)

Served as a domain expert, defining workflow automation for forensic platforms.
Simplified legal & compliance frameworks for multi-country deployment.
Analyze user data, conduct A/B testing, and gather insights to make data-driven decisions.
Support to COO for CMMi Level 3 and ISO 27001 complaint.

7. Entrepreneur

Surveillance Forensic, Indore (*Jun 2012 – Dec 2014*)

Co-led a forensic consultancy venture focused on QD verification for legal investigations.
Expanded business operations by establishing a dedicated branch in Indore.
Authored technical forensic reports used in court proceedings.

Education

Doctorate of Business Administration (*Jan 2025 – Present*)

European Institute Management and Technology, Zurich, Switzerland

Thesis: "Orchestrating Intelligence: A New Playbook for Product Leadership in the AI-Driven SaaS Era" — Active research into how organisations can embed AI as a structured, governed innovation capability: defining data exposure models, accountability frameworks, and role design for AI-augmented teams. Directly applicable to enterprise innovation management and the governance of AI-driven process transformation.

Master's in Forensic Science (*2010 – 2012*)

Dr. Hari Singh Gour University, Sagar, India | [Degree](#)

Bachelor's in Forensic Science (*2007 – 2010*)

Amity University, Noida, India | [Degree](#)

Certifications

- **Entrepreneur Master** - World Marsterclass (*Aug 2024*) | [Certificate](#)
- **Agile Fundamental** – Scrum Study (*Jun 2018*) | [Certificate](#)
- **ISTQB Foundation** – Malaysia Software Testing Board (*Oct 2016*) | [Certificate](#)
- **Business Communication** - Amity University (*Jun 2007 - May 2010*) | [Certificate](#)
