

SANCHIT NEEMA

AI & Analytics Product Leader | Enterprise AI Solution | 11 Years B2B SaaS | DBA (AI Orchestration)
sanchit.neema@gmail.com • +60 13 680 3565 • linkedin.com/in/sanchit-neema-35033 • Kuala Lumpur, Malaysia

PROFESSIONAL SUMMARY

AI and analytics product leader with 11 years of experience designing and deploying AI-driven digital solutions across global B2B SaaS platforms. Deep expertise in shaping AI and analytics product vision, translating complex business needs into scalable solutions, and governing AI adoption across enterprise organisations. Hands-on experience with Generative AI, Agentic AI workflows, machine learning pipelines, and AI automation — including practical deployment of LLM-based solutions for process automation and decision support.

Currently pursuing a Doctorate in Business Administration at EIMT Zurich focused specifically on AI orchestration and governance in enterprise organisations. Research centres on building and validating the AI Orchestration Maturity Index (AOMI) — a five-dimension diagnostic instrument measuring AI tool governance, data sovereignty, cross-functional friction, human-AI decision accountability, and workforce competency readiness. Directly applicable to the challenge of shaping AI and analytics solution portfolios at enterprise scale.

KEY SKILLS & EXPERTISE

AI & Analytics: Generative AI (LLM/GPT), Agentic AI, RAG Architecture, Machine Learning, Predictive Analytics, AI Automation Pipelines, AI Governance & Orchestration, Prompt Engineering, Sales Planning, Inventory Recommendation

Data Platforms: Microsoft Fabric, AWS (S3/Microservices), GCP, Data Pipeline Design, DMP/CDP Architecture, SQL/MySQL/MongoDB, Tableau, Power BI, Real-Time Analytics, Snowflake

Solution & Product Ownership: Product Roadmap & Vision, Backlog Management, Solution Design, User Story Development, Acceptance Criteria, Stakeholder Management (C-Suite/Board), Agile/Scrum, SDLC

AI Governance & Research: AI Tool Sprawl Measurement, Data Sovereignty Controls, Shadow AI Risk, Human-AI Accountability Frameworks, Workforce Competency Readiness, Design Science Research (DSRM)

Systems & Integration: Salesforce CRM, Oracle NetSuite ERP, SAP, RESTful APIs, Microservices Architecture, SSO/RBAC/IAM, Event-Driven Architecture, Azure AI Services

Tools: JIRA, Figma, Claude (Gen AI), Replit (Agentic Dev), GA4, Power BI, Salesforce, MySQL, MongoDB, Zoho Suite

KEY IMPACT AT A GLANCE

- **Built AI Orchestration Maturity Index (AOMI)** — a five-dimension validated diagnostic instrument for enterprise AI governance, applicable across SaaS, AdTech, fintech, and manufacturing organisations for process improvement.
 - **Deployed Generative AI and Agentic AI workflows** — automating PRD generation, requirements documentation, and cross-team reporting pipelines; reducing manual cycle time from 3 hours to 20 minutes.
 - **Designed AI recommendation engine** — using ML-driven audience pattern analysis to optimise campaign placement. Delivered 40% revenue uplift for key client (AirAsia) by surfacing non-obvious audience insights.
 - **Oversaw USD 10M product investment** — across AI/ML capability integration, full platform rearchitecture, company acquisitions, and third-party data infrastructure.
 - **Rearchitected decade-old monolithic platform** — into microservices, API-first architecture across 20 global markets, unlocking 6 independently monetisable product lines.
 - **Led Salesforce and Oracle NetSuite integrations** — designing cross-system data models, API specifications, and transformation logic enabling real-time CRM-ERP sync across enterprise clients.
 - **Received 'Fountain of Knowledge' Award** — for pioneering Programmatic DOOH advertising in Asia — first programmatic campaign in the region, integrated with Google Ads.
-

PROFESSIONAL EXPERIENCE

Lead Staff Product Manager • Apr 2025 – Present

Moving Walls Sdn Bhd • Kuala Lumpur, Malaysia

- **Orchestrated AI product vision** — for global AdTech ecosystem across 20 markets, achieving 90% roadmap delivery accuracy and 85% customer satisfaction.
- **Deployed Generative AI and Agentic AI tools** — (Claude, Replit, AI Agents) to accelerate product development cycles — automating PRD generation from prototypes, linking documentation to Confluence, and enabling vibe-coded feature prototyping.
- **Directed cross-functional squads of 15+** — including Software Engineers and Data Scientists, running Agile delivery, OKR reviews, and quarterly roadmap presentations to the Board of Directors.
- **Oversaw USD 10M strategic investment** — across four initiatives: AI/ML capability integration, full-platform rearchitecture, acquisitions, and third-party data infrastructure.
- **Implemented enterprise-grade IAM platform** — integrating Auth0, SSO, and RBAC with automated provisioning triggered by CRM lead conversion.

Manager — Discovery & Solutions • Apr 2024 – Mar 2025

Moving Walls Sdn Bhd • Kuala Lumpur, Malaysia

- **Designed and implemented AI automation pipelines** — replacing manual cross-team workflows using Generative AI, low-code automation, loosely coupled integration (Zappier), and REST API integrations — reducing process cycle time by 40%.
- **Applied Agentic AI in daily product workflows** — using AI agents to conduct requirements interviews, generate technical specifications, build working prototypes, and auto-produce documentation — eliminating manual writing entirely.
- **Gathered and structured business requirements** — across 5 regional business units, translating operational pain points into solution specifications and configurable process frameworks adopted globally.
- **Built AI-powered recommendation engine** — using historical campaign and audience movement data; surfaced non-obvious targeting patterns, dynamic creative optimization - delivering 40% revenue improvement.
- **Created company's first process documentation framework** — including SLA standards and knowledge base adopted across all business units.

Lead Product Manager • Jun 2023 – Mar 2024

Moving Walls Sdn Bhd • Kuala Lumpur, Malaysia

- **Led Salesforce and Oracle NetSuite integration** — designing cross-system data object mapping, API specifications, and transformation logic; enabling real-time CRM-ERP sync for enterprise clients across APAC.
- **Built end-to-end Order Management System** — integrated with CMS, Stripe (payments), and Zoho Books (finance reconciliation) — replacing manual billing with automated error-free processing.
- **Drove product expansion to South Africa, USA, and Australia** — integrating local audience datasets providing geo-behavioural targeting intelligence for enterprise clients in new markets.
- **Managed product lifecycle** — ideation, customer discovery, technical specification, sprint delivery, UAT, and go-to-market, new products by leveraging AI tools at every stage.

Product Manager • Jul 2018 – May 2023

Moving Walls Sdn Bhd • Kuala Lumpur, Malaysia

- **Designed self-serve campaign management platform** — modelled on e-commerce ordering lifecycle, enabling SME advertisers to configure, execute, and track campaigns end-to-end. 75% enterprise adoption, 50% reduction in setup time.
- **Pioneered programmatic DOOH in Asia** — first programmatic campaign in the region (Domino's), integrated with Google Ads. Received 'Fountain of Knowledge' Award.
- **Integrated Supply-Side Platforms** — including Google Ad Manager 360, DV360, TTD, BroadSign, and Viooh, expanding addressable inventory to 2M+ assets.
- **Translated product requirements into technical specifications** — covering API contracts, data models, user journey flows, and validation logic for engineering delivery.

Business Analyst • Sep 2017 – Jun 2018

Moving Walls Sdn Bhd • Kuala Lumpur, Malaysia

- **Designed advanced audience targeting algorithms** — enabling personalised ad recommendations; the analytical foundation of the AI-driven capabilities built throughout subsequent roles.
- **Collaborated with data teams** — to improve DMP functionalities and predictive analytics capabilities.
- **Led operational gap analysis and process optimisation** — improving operational efficiency by 25% across product and data workflows.
- **Conducted UAT and gathered user feedback** — driving iterative product improvements across the platform.

Forensic Scientist & Workflow Automation Lead • Mar 2015 – Aug 2017

iGene Sdn Bhd • Kuala Lumpur, Malaysia

- Served as domain expert bridging forensic science and engineering — defining workflow automation for forensic digital autopsy platforms deployed across multiple countries.
- Built 3D crime scene reconstruction tool for Royal Malaysia Police (PDRM) and NLP system for automated forensic report generation — early applied AI work.
- Supported CMMi Level 3 and ISO 27001 compliance — establishing early foundation in governance and process standards.

EDUCATION

Doctorate of Business Administration (DBA) — AI Orchestration & Governance Jan 2025 – Present (*In Progress*)

European Institute of Management and Technology (EIMT), Zurich, Switzerland

Thesis: "Orchestrating Intelligence: Measuring and Resolving AI Tool Sprawl in SaaS Product Organisations — Development and Validation of an AI Orchestration Maturity Index (AOMI)." Building a five-dimension validated diagnostic instrument scoring organisations across: Tool Governance, Data Sovereignty, Cross-Functional Friction, Human-AI Decision Accountability, and Workforce Competency Readiness. Produces composite maturity ratings across five bands (Ad Hoc → Fragmented → Coordinated → Governed → Orchestrated) with dimension-specific remediation guidance. Follows Design Science Research Methodology (DSRM). Directly applicable to enterprise AI adoption governance and analytics solution portfolio management.

Master's in Forensic Science • 2010 – 2012

Dr. Hari Singh Gour University, Sagar, India

Bachelor's in Forensic Science • 2007 – 2010

Amity University, Noida, India

CERTIFICATIONS & RECOGNITION

- "Fountain of Knowledge" Award — Moving Walls (Innovation in Programmatic Advertising, APAC — First programmatic DOOH campaign in Asia)
- Entrepreneur Master — World Masterclass (Aug 2024)
- Agile Fundamentals — Scrum Study (Jun 2018)
- ISTQB Foundation — Malaysia Software Testing Board (Oct 2016)
