

SANCHIT NEEMA

Senior Business Analyst & AI Solutions | Product Leadership | 11 Years B2B SaaS

sanchit.neema@gmail.com • +60 13 680 3565 • linkedin.com/in/sanchit-neema-35033 • Petaling Jaya, Malaysia

PROFESSIONAL SUMMARY

Analytical and delivery-focused professional with 11 years of experience designing and implementing digital solutions for B2B SaaS platforms. Deep expertise in business requirements analysis, solution design, and agile delivery — including AI automation pipelines, CRM integrations (Salesforce), ERP connectivity (Oracle NetSuite, SAP), and microservices architecture. Experienced in translating complex business problems into working digital solutions across global teams spanning 20+ countries. Currently pursuing a Doctorate in Business Administration focused on AI governance and human-AI collaboration in enterprise organisations — directly applicable to AI-powered sales enablement tools. Passionate about using AI to improve how field sales teams engage with customers and generate measurable business impact.

KEY SKILLS & EXPERTISE

Business Analysis & Solution Design: Requirements Gathering, Solution Design, User Story Development, UAT, Gap Analysis, Process Optimisation, Technical Documentation, Agile/Scrum

AI & Data: MS Azure AI, Machine Learning, AI Automation Pipelines, Predictive Analytics, Data Visualisation (Tableau/Power BI), AI-Assisted Insights, Anomaly Detection

Systems & Integration: Salesforce (CRM), Oracle NetSuite (ERP), AWS Microservices, RESTful APIs, Microservices Architecture, SSO / RBAC / IAM, Event-Driven Architecture

Product & Delivery: Product Roadmap, Backlog Management, Sprint Planning, SDLC Optimisation, System Design, E-Commerce Platform Architecture

Tools: JIRA, Figma, MySQL, MongoDB, Power BI, Salesforce, Claude, Replit, GA4, Zoho Suite

KEY IMPACT AT A GLANCE

- Built AI automation pipelines replacing manual reporting across 5 regional teams — reducing process cycle time from 3 hours to 20 minutes.
 - Led Salesforce and Oracle NetSuite integrations — enabling real-time CRM data sync, automated billing reconciliation, and enterprise reporting.
 - Designed e-commerce-style campaign ordering flow enabling SME users to configure, execute, and track end-to-end without technical assistance — 75% customer adoption.
 - Rearchitected a decade-old monolithic platform into microservices API-first architecture — unlocking 6 independently monetisable products.
 - Oversaw deployment of USD 10M product investment across AI/ML capabilities, platform rearchitecture, and data infrastructure.
 - Received 'Fountain of Knowledge' award for pioneering Programmatic Advertising in Asia — first programmatic DOOH campaign in APAC.
 - Managed 1,000+ monthly multi-channel campaign executions globally across CTV, DOOH, Web, and Mobile inventory.
-

PROFESSIONAL EXPERIENCE

Lead Staff Product Manager • Apr 2025 – Present

Moving Walls Sdn Bhd • Kuala Lumpur, Malaysia

- **Orchestrated product vision and roadmap** across global AdTech ecosystem — achieving 90% delivery accuracy and 85% customer satisfaction.
- **Deployed USD 10M strategic investment** across four initiatives: AI/ML capability integration, full-platform rearchitecture, company acquisitions, and third-party data infrastructure.
- **Led complete platform rearchitecture** from decade-old monolith to clean microservices architecture with unified SSO — unlocking 5 new independently monetisable product lines.

- **Designed and implemented enterprise-grade IAM platform** integrating Auth0, SSO, and RBAC across all SaaS products with automated account provisioning triggered by CRM lead conversion.
- **Directed cross-functional team of 15** including engineers and data scientists — running Agile delivery, OKR reviews, and quarterly roadmap presentations to the Board.
- **Used AI development tools daily** (Replit, Claude Code, Antigravity) to accelerate innovation cycles, build prototypes, and auto-generate PRDs linked to Confluence.

Manager — Discovery & Solutions • Apr 2024 – Mar 2025

Moving Walls Sdn Bhd • Kuala Lumpur, Malaysia

- **Gathered and analysed business requirements** across 5 regional business units — translating operational pain points into structured solution specifications for engineering delivery.
- **Designed and implemented AI automation pipelines** replacing manual discovery, reporting, and cross-team workflows — reducing process cycle time by 40% and freeing teams for higher-value work.
- **Built AI tools using low-code and API-based automation** (Zapier, REST integrations) to streamline data flows between regional teams — eliminating repetitive manual data handling.
- **Created the company's first internal knowledge base** SLA delivery standards, and cross-functional process documentation — adopted across all business units and reducing onboarding time significantly.
- **Identified and proposed tablet advertising** as a new business line — conducted market research, flew to South Korea, closed a partnership with t'Order, and launched Hilti's first restaurant tablet ad campaign with LG Electronics.
- **Implemented SSO and RBAC identity solutions** ensuring secure, role-based access control across all platform products.

Lead Product Manager • Jun 2023 – Mar 2024

Moving Walls Sdn Bhd • Kuala Lumpur, Malaysia

- **Led Salesforce and Oracle NetSuite API integrations** — defining technical specifications, mapping data flows, managing engineering delivery, and enabling enterprise clients to sync CRM data, billing records, and performance analytics in real time.
- **Developed end-to-end Order Management System** integrated with CMS, Stripe (payments), and Zoho Books (finance reconciliation) — replacing manual billing with automated, error-free processing.
- **Drove product expansion to South Africa, USA, and Australia** by integrating local audience datasets — providing geo-behavioural targeting intelligence required to win enterprise clients in new markets.
- **Managed full product lifecycle end-to-end:** ideation, customer discovery, technical specification, sprint delivery, UAT, and go-to-market — consistently shipping on time and within budget.

Product Manager • Jul 2018 – May 2023

Moving Walls Sdn Bhd • Kuala Lumpur, Malaysia

- **Designed self-serve campaign management platform** modelled on e-commerce ordering lifecycle — enabling SME advertisers to configure, execute, and track campaigns end-to-end without technical assistance. Achieved 75% enterprise adoption and 50% reduction in campaign setup time.
- **Integrated Supply-Side Platforms (SSPs)** including Google Ad Manager, BroadSign, and Viooh — expanding addressable inventory to 2M+ assets across markets through structured API integrations and partnership negotiations.
- **Pioneered programmatic DOOH advertising in Asia** — first programmatic campaign in the region (Domino's), integrated with Google Ads, achieving +40% revenue boost. Received Fountain of Knowledge Award.
- **Translated product requirements and user stories** into detailed technical specifications for engineering — covering API contracts, data storage design, user journey flows, and validation logic.

Business Analyst • Sep 2017 – Jun 2018

Moving Walls Sdn Bhd • Kuala Lumpur, Malaysia

- **Designed advanced audience targeting algorithms** enabling personalised ad recommendations — the foundation of the AI-driven analytics capabilities developed throughout subsequent roles.
- **Collaborated with data teams** to improve DMP (Data Management Platform) functionalities and predictive analytics capabilities.

- **Led operational gap analysis and process optimisation** across product and data workflows — improving operational efficiency by 25%.
- **Conducted UAT and gathered user feedback** to drive iterative product improvements across the platform.

Forensic Scientist & Workflow Automation Lead • *Mar 2015 – Aug 2017*

iGene Sdn Bhd • Kuala Lumpur, Malaysia

- Served as domain expert, defining and automating workflows for forensic digital autopsy platforms deployed across multiple countries.
- Built 3D crime scene reconstruction tool for Royal Malaysia Police (PDRM) and developed NLP system for automated forensic report generation.
- Supported CMMi Level 3 and ISO 27001 compliance — establishing early foundation in governance and process standards.
- Conducted A/B testing, user research, and data analysis to improve platform features — the start of a data-driven product discipline.

EDUCATION

Doctorate of Business Administration (DBA) — AI Strategic Innovation • *Jan 2025 – Present (In Progress)*

European Institute of Management and Technology (EIMT), Zurich, Switzerland

- Thesis: "Orchestrating Intelligence: Measuring and Resolving AI Tool Sprawl in SaaS Product Organisations" — Developing the AI Orchestration Maturity Index (AOMI): a validated diagnostic instrument measuring AI governance maturity across tool governance, data sovereignty, cross-functional friction, human-AI accountability, and workforce readiness. Directly applicable to enterprise AI adoption and sales enablement programmes.

Master's in Forensic Science*2010 – 2012*

Dr. Hari Singh Gour University, Sagar, India

Bachelor's in Forensic Science*2007 – 2010*

Amity University, Noida, India

CERTIFICATIONS & RECOGNITION

- "Fountain of Knowledge" Award — Moving Walls (Innovation in Programmatic Advertising, APAC)
- Entrepreneur Master — World Masterclass (Aug 2024)
- Agile Fundamentals — Scrum Study (Jun 2018)
- ISTQB Foundation — Malaysia Software Testing Board (Oct 2016)
